Copper Chorus

Mining, Politics, and the Montana Press 1889-1959

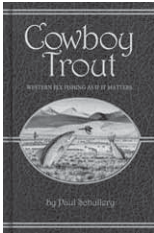

By Dennis L. Swibold

For seven decades newspapers owned or controlled by the Anaconda Copper Mining Company cast a wide shadow over Montana's press and politics. *Copper Chorus: Mining, Politics, and the Montana Press, 1889-1959* is the first book to examine the extent, effectiveness, and consequences of one of the nation's most notorious and enduring cases of industrial press ownership.

"Copper Chorus is the definitive chronicle of Montana's checkered newspaper history. The facts are laid bare like so much wire stripped to the bare copper. The writing is powerful and authoritative, the research revelatory. But the book's importance transcends historical interest. In today's polarized and vicious media environment, the lessons of Montana's copper-collared press era are more relevant than ever."
